15.0–17.0 Credit Hours

PREREQUISITE: Core CE Program (15 sessions) must be completed before enrolling in this specialty track.

PROGRAM DESCRIPTION

The NSAG Core CE Program is a 15-session on-demand curriculum covering all 13 NSAG governance modules — from trauma-informed legal space to burnout governance to medical AI accountability to cannabis documentation to traditional and complementary medicine. Each session applies the Nervous-System-Aware Governance framework to a specific institutional domain: identifying the governance gap, presenting the primary evidence base, defining six governance dimensions, and showing what PIONEERING governance looks like in practice.

The core curriculum is designed to qualify simultaneously for CME (AMA PRA Category 1), CNE (ANCC contact hours), CLE (general and elimination of bias), CPE (ACPE contact hours), SW-CE (NASW clock hours), Psych-CE (APA credits), and CHES (SOPHE Category I CECH). Upon completing all 15 sessions, practitioners receive 15.0 CE credit hours in their applicable type. Adding any specialty track earns an additional 1.0 or 2.0 hours, for a maximum of 17.0.
